Quality Parts, Quality Built

Steel base aeration unit

Quality Aeration Packages are designed to meet your specific air requirements. Housed in a weatherproof fiberglass enclosure or mounted on a rugged steel base for indoor applications.

Our housings are made of the highest USA grade of fiberglass available. All high stress areas such as mounting flanges and supports are re-enforced to ensure a durable, high quality housing that is built to last!

Re-enforced flanged mounting legs

Custom Packages

Each unit is custom designed and built to your specifications. For noise control and reduction we offer acoustical insulated fiberglass hoods, intake and exhaust mufflers. Custom steel base designs are also available. Quality Controls engineering team is eager to assist you with all of your custom design requirements
